OUR SERVICES

Benefits and Support

In Kalstein France, we take care of the full satisfaction of our customers, that is why we provide value-added services of the highest level based on our experience.

Online Inductions and Trainings

In any part of the world, receive your induction or training from our specialized team of engineers

Quick Response

Our work team is always available to response all your consults or questions, in order to support you in any situation.

#Letsgivemore ♥

Thanks to your purchase, a donation will be made to a non-profit foundation that fights against breast cancer and helps most vulnerable communities.

Technical Support

Enjoy of personalized advice for the correct preventive and corrective maintenance of your equipment, thanks to Kalstein's manuals and articles, special catalogues and video tutorials.

Delivery Logistics

We take care of all the necessary logistics for the dispatch of your goods, whether is by sea, land or air.

Kalstein Worldwide

With more than 25 years growing with our customers, Kalstein's multiformat and modern content, is now present in more than 10 countries and increasing.

Decoloration Shaker

Series YR05794

DS Decolorization shaker adopts digital display, dc motor, microcomputer control speed, with power recovery and fault self-diagnosis.

DS Decolorization shaker is widely used for experiments where samples need a shaking in aqueous solution, fixed electrophoresis gel separation band, shaking while Coomassie blue staining and decolouring, silver nitrate staining fixed, dyeing and enhancement.

Advantage

- ✓ LED Display can show the setting parameters directly.
- ✓ The instrument adopts a Dc motor, use microcomputer to control speed, to achieve high accuracy, and not be affected by voltage fluctuations.
- ✓ The instrument is designed with low-speed start, avoiding sudden high speed may cause liquid split.
- ✓ The instrument can automatically operate according to the original settings after power get normal from a sudden cut off.
- ✓ The instrument can realize fault self-diagnosis by sound and light to prompt the fault location.
- ✓ Each parameter value can be modified in real time under running state.
- ✓ When overloaded, the instrument will automatically stop, ensuring the life and safety of the instruments.
- ✓ Wide voltage range, can be used in the range of AC90-260v.

Model	YR05794/YR05795		YR05796/YR05797		YR05798/YR05799		YR05800/YR05801	
shaking mode	orbital/convolution		liner/reciprocation		rocking		waving /three dimensional	
control	Microcomputer PID control							
display	LED digital display
